

## AASHTO Duty of Care for On-Site Assessments

Revised August 2023

The safety of our customers and laboratory assessors is AASHTO's prime concern as we conduct on-site assessments. So that assessments can be conducted in a safe environment, AASHTO is committed to the following:

### Procedures in the Event of a Potential COVID-19 Infection

If an AASHTO representative has [COVID symptoms](#), AASHTO will follow the CDC's guidelines for [isolation and precautions for people with COVID-19](#).

So that assessments can be conducted in a safe environment, we ask that laboratories receiving an on-site assessment share with the laboratory assessor(s) visiting their facility any safety policies or guidelines related to COVID-19 prior to their arrival.

Any concerns regarding this policy shall be directed to:
